

HARRIMAN HAS DAY IN COURT

Answers, Demurrers and Bills of Exceptions Filed in Illinois Central Injunction.

NUMEROUS CHARGES MADE

ANOTHER CHAPTER IN THE FISH IMBROGLIO.

Chicago, Nov. 23.—Answers, demurrers and bills of exceptions to the injunction suit brought by Stuyvesant Fish and others in the Illinois Central Imbrolio, were filed today. The answer of John Jacob Astor, A. G. Hackstaff, John W. Auchincloss, Cornelius Vanderbilt and J. T. Harahan, which is made joint, is the most important of the documents. Numerous charges regarding Mr. Fish's acts as president of the railroad are contained in it. It is claimed that inasmuch as Fish, acting as proxy, has in times past often voted the stock held by the Railroad Securities company at meetings of the Illinois Central Railroad company, he is thereby estopped from now objecting to the ownership by the Railroad Securities company of Illinois Central shares.

Admission and Charge.

In another section of their answer these five directors of the Illinois Central admit the connection of Messrs. Harriman, Golet and Peabody with the Union Pacific railroad, but they point out in return that Stuyvesant Fish is a director and member of the executive committee of the Missouri Pacific road, which, they assert, "is a direct competitor of the Illinois Central railroad." In much of the latter's territory, while "neither the Union Pacific nor the Southern Pacific is in any sense of the word a competitor of the Illinois Central."

Alleged Misuse of Funds.

The defendants deny that they voted for J. T. Harahan and against Stuyvesant Fish in the election for president of the Illinois Central railroad at the behest of E. H. Harriman, asserting that their action was taken because "the said Fish had misused the funds of the Illinois Central Railroad company," had "used his power as president of the said company to further his personal interests, to the great detriment and financial injury" of the railroad. They also assert that Mr. Fish "made unprofitable contracts involving large sums" without the sanction of the board of directors.

Demurrers Also Filed.

In addition to this answer to the charges of Mr. Fish, demurrers were filed by the Mutual Life Insurance company and the Railroad Securities company, the former asking that the suit be dismissed as far as it is concerned. Edward H. Harriman, Robert W. Golet, Charles A. Peabody and the Union Pacific Railroad company filed a bill of exceptions, most of the objections being made to excerpts from an interstate commerce commission report, which Mr. Fish included in his bill of complaint. A joint answer was also filed by J. B. Lord, Frederick Winston, Ralph M. Shaw and other defendants, who deny that any of the stock registered in their names is the property of the Union Pacific railroad or controlled by that company.

UNDER MARTIAL LAW.

Lisbon, Portugal, Said to Be a Hotbed of Rebellion.

Lisbon, Nov. 23.—The city of Lisbon is now practically under martial law. Three generals are known to have been relieved of their commands, and, according to reports, some 300 political prisoners have been placed on board a cruiser, which left this port immediately afterward. Their version of the rumor is that the officers of the cruiser were disaffected. Rebellion is said to be rampant in the navy.

An official statement given out by the government tonight declares that the situation in Lisbon has been grossly misrepresented. It says: "The fantastic rumors concerning members of the royal family, the attitude of the military forces and political leaders as well as the stories of an outbreak against order, are absolutely without foundation."

There's Music In The Air

All day long for the person whose appetite is good, whose blood circulates freely, and whose brain acts promptly, with precision and ease, at his bidding.

Improper food, by causing indigestion and imperfect nourishing the brain and body, turns the "sweet sounds into jangling noise," and sunshine into darkest shadows.

There's a lot more in having the right kind of food than many rushing, worrying persons dream of.

If the "music has gone out of the air" for you, look to your food. Get down to natural, simple living. For a change, eat

Grape-Nuts

And cream for breakfast, cut out the meat and "fried cakes"—try a slice or two of nice crisp toast, and instead of coffee drink Postum. Chances are you'll find, in a week or two, that "there's music in the air," and also that

CLEAR WEATHER FOR TODAY

Weather Bureau Predicts That Snow Flurries Will Be Followed by a Lighter Atmosphere.

Dr. Hyatt has a pretty big job on his hands if he carries out the predictions for the day. First he says there will probably be clear snow at night, to be followed by clearing Sunday. Yesterday the weather bureau treated the people to a rejuvenation of the temperature, which had begun to sag to an astonishing degree. The low yesterday was 31 and the high 42. There was only a trace of precipitation. The record for the day reads:

Maximum temperature, 42 degrees; minimum temperature, 31 degrees; mean temperature, 38 degrees, which is 2 degrees below normal. Accumulated deficiency of temperature since the first of the month, 9 degrees. Accumulated excess of temperature since January 1, 1.7 degrees; relative humidity, 68 per cent.

Total precipitation from 6 p. m. to 6 p. m., trace; accumulated deficiency of precipitation since the first of the month, .87 inch; accumulated excess of precipitation since January 1, 2.86 inches.

Lander came into its own estate again yesterday, for it rose from the 8 class to the 14. There wasn't any place reporting less than two figures for cold. The surprising part of the weather business is how the cold keeps up in Yuma. The best Yuma could do yesterday was 30 for low and 70 for high. Montgomery reports a rainfall of nearly an inch and a half, which, added to the inch and a half that fell there on the previous day, ought to make Montgomery a pretty wet town.

Generally the temperatures have been reasonable. The bureau says: "High barometric pressure was central this morning over Oregon, the lake region and central valleys. Low pressure was reported over the south plateau, British Northwest Territory and east gulf states. The conditions have caused rain or snow over portions of California, Nevada, Idaho, Oregon, Washington, British Columbia, the gulf and Atlantic states, with rain at time of observation at Portland, Montgomery, Knoxville and Norfolk. Heavy rainfall occurred at Montgomery, 1.42 inches. Local snow tonight, followed by clearing weather Sunday is indicated for this vicinity, owing to the barometric conditions over this section."

Hackett Gets Six Months for Not Leaving Town.

James Hackett, the man who was captured by the police with skeleton keys in his possession and given time to leave town, did not depart from Salt Lake and also did not appear in the police court yesterday, when he was to have been sentenced by Judge Diehl if he failed to shake the dust of the city from his feet. Learning of this, Judge Diehl sentenced Hackett to six months' imprisonment. The man was found in Commercial street last night and taken to the county jail to begin his term of confinement. In addition to having the skeleton keys, Hackett was accused of having robbed a man of \$5, but the evidence was insufficient. For that reason Judge Diehl gave the man a chance to get out of town.

MADE NEW RECORD.

Verdun, France, Nov. 23.—The dirigible army balloon La Patria broke another record today. The balloon traveled a distance of 275 kilometers under adverse weather conditions, fog and rain, the average speed being forty kilometers an hour.

Piles 15 Years

Saved From an Operation by a Half Box of the Pyramid Pile Cure—You Can Try It Free.

"I cannot help writing to you about your wonderful cure for piles. When I wrote you for a sample I was thinking of going through an operation. But I thought I would give your remedy a trial. I am so happy that I did for I am cured and only used half a box. I write this for humanity's sake. I had piles ever since the year 1891. I wish you would publish my name through the Bulletin paper, for I am well known in the Marine Corps. Use my name the best way you know how. Thanking you for your good advice. Yours truly, Cleophas Forte, Marine Barracks, U. S. N. Training Station, San Francisco, Cal."

What should induce this United States seaman to write in that manner if not gratitude for being cured of a disease which had tortured him for fifteen years? Mr. Forte was positively unknown to us until he wrote for the sample of our wonderful remedy.

You may be suffering in the same way. Just send your name and address to Pyramid Drug Co., 39 Pyramid Building, Marshall, Mich., and receive free by return mail the trial package in a plain wrapper.

The moment you start to use it your suffering ends and the cure of your dread disease is in sight.

Then you can get a full-sized box from any druggist for 50 cents, and even one box may cure you.

It is well worth trying.

No knife and its torture.

No doctor and his bills.

All druggists, 50 cents. Write today for a free package.

BEDRIDDEN OF RHEUMATISM

Arises After One Chiropractic Treatment By Dr. Farnsworth, the Drugless Healer, and Returns to Work After Fifth Treatment.

A Most Remarkable Accomplishment of Chiropractic Adjustments.

After suffering since last April of rheumatism, which hampered health and at times made it impossible for him to perform his daily labors in the shops of a local railway, A. M. Parks finds Dr. Farnsworth's treatments the first real relief for his affliction. Read what he has to say about his own case: "I was first attacked with rheumatism last April and at about the same time commenced my doctoring with everything that was suggested to me, but without even reasonable relief. Instead of improving my condition grew gradually worse until it was a hard task for me to do my regular work. Finally I was compelled to do just what I had made a determined fight against—give up work and go to bed. This was about three weeks ago. The suffering I underwent is beyond me to describe and I was ready and willing to try every remedy that was offered as a possible cure. "In looking over the newspapers my wife noticed the advertisements of Dr. Farnsworth in which were printed testimonials of people whom he had cured and she went at once to call upon the ones mentioned, to personally verify the statements, which she found to be true statements of the cases. She then went to the doctor's office in the Auerbach building and persuaded him to come to the house to examine me, as I was unable to be moved. I must say that I regard that visit of the doctor as the beginning of the salvation of my health, for after one treatment, or adjustment, as he calls it, I slept soundly, something I had not done for months, and the next morning arose and was able to move about. "After that day I went to the doctor's office to take the treatments, and after five visits returned to the shop to work and have steadily improved at a rate that is more than gratifying, for I realize that it is impossible to perfect a cure in a day of a trouble that has stood so long. "I am working every day while continuing the treatments and feel fine in myself and am confident that the good already accomplished is going to be permanent."

A. M. PARKS.

Pretty good evidence it is not, of the healing power of scientific chiropractic adjustments as administered by Dr. Farnsworth. The same results can be obtained in all other cases of Rheumatism, Nervous Diseases, Headache, Backache, Liver, Kidney or Stomach Trouble or Female Trouble. It is the plain common sense cure of restoring affected nerve centers to normal conditions through skillful manipulations, and vibrations, with out the use of drugs or knives.
